

LEADERSHIP COMMITTEE: PROGRAM DIRECTORS

NAME	TITLE	INTERESTS
Nancy Adler, Ph.D. Co-Director	Director, Center for Health and Community; Professor and Vice Chair, Psychiatry, UCSF	Socioeconomic status and health; reproductive health
Ray Catalano, Ph.D. Co-Director	Professor, School of Public Health; Director, Ph.D. Program in Health Services and Policy Analysis, UCB	The causes, and population health effects, of selection and plasticity <i>in utero</i> .
Robert A. Hiatt, M.D., Ph.D. Associate Director	Professor and Chair, Epidemiology and Biostatistics, Director of Population Sciences and Associate Director, Helen Diller Family Comprehensive Cancer Center, UCSF	Social determinants of cancer, cancer epidemiology, cancer health disparities, transdisciplinary science, quality of cancer care, breast cancer and the environment
Barbara Laraia, Ph.D., M.P.H., R.D. Associate Director	Associate Professor, Public Health Nutrition, School of Public Health, UCB	Household food security, food environment and health, food policy, maternal and child health, social epidemiology, and measurement of neighborhood context

PROGRAM LEADERS

NAME	TITLE	INTERESTS
Paula Braveman, M.D., M.P.H.	Professor, Family and Community Medicine, Director, Center on Social Disparities in Health, UCSF	Social inequalities in health and health care
Wendy Mendes, Ph.D	Sarlo/Ekman Associate Professor of Emotion, Department of Psychiatry, UCSF	Social and biological psychology; Emotions
S. Leonard Syme, Ph.D.	Professor of Epidemiology and Community Health (Emeritus), School of Public Health, UCB	Social Disparities in health and health care; long term effects of early social experience, community interventions
Jennifer Ahern, M.P.H., Ph.D.	Assistant Professor, Epidemiology, UCB	Neighborhood social and structural environment; health variability in population health; development and application of novel conceptual and methodological approaches to research in social epidemiology

MENTORS

NAME	TITLE	INTERESTS
Barbara Abrams, Dr.P.H., R.D.	Professor of Epidemiology, Maternal and Child Health, and Public Health Nutrition, UCB	Weight and weight gain in women during pregnancy, postpartum and menopause; maternal weight, nutrition, social factors and perinatal health outcomes; could expressed and heat-treated breast milk prevent perinatal HIV transmission?
Tomas Aragon, M.D., Dr.P.H.	Health Officer, City & County of San Francisco Director, Population Health & Prevention, SF Department of Public Health Faculty, UC Berkeley School of Public Health	Epidemiologic methods; study design; burden of disease approaches
Colette (Coco) Auerswald, M.D., M.S.	Associate Professor of Pediatrics Division of Adolescent Medicine, UCSF Director of Master's Curriculum UC Berkeley-UCSF Joint Medical Program	Cultural and social context for HIV and STD-related behaviors in marginalized youth populations, mixed qualitative and quantitative methods in adolescent health research, homeless youth, social networks and adolescent health
Mark Baldassare, Ph.D.	President and CEO of Public Policy Institute of California (PPIC)	Public opinion (political, social, economic, and environmental attitudes); State and local government relations; Political participation; Demographics
Judith C. Barker, Ph.D., M.A., M.S.c.	Professor, Departments of Anthropology, History & Social Medicine and Preventive & Restorative Dental Sciences Associate Director, Center to Address Children's Oral Health Disparities (CANDO), UCSF	Social organization of care at family and community levels; aging; chronic illness; substance use; oral health; health disparities; vulnerable populations; qualitative methods and analysis
Lisa Bero, Ph.D.	Associate Professor, Department of Clinical Pharmacy, Institute for Health Policy Studies, UCSF	Tobacco control policy; translating research into practice; research conflicts of interest; Cochrane library

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Rajiv Bhatia, M.D., M.P.H.	Director, Occupational and Environmental Health Sections, San Francisco Department of Public Health Assistant Clinical Professor, Medicine, UCSF	Applied epidemiology; health impact assessment; participatory action research
Paul D. Blanc, M.D., M.S.P.H.	Professor of Medicine, Endowed Chair in Occupational and Environmental Medicine, UCSF	Occupational disease and disability, particularly in relation to respiratory exposures and pulmonary conditions
Marie Bleil, Ph.D, M.P.H.	Assitant Adjunct Professor, Department of Psychiarty, UCSF	Developing and testing models of disease risk that explain why psychological and biological risk factors for disease tend to co-occur; role of the environment in modulating the relationship between psychological diatheses for disease and disease development itself.
Tom Boyce, M.D.	Professor, Department of Pediatrics, UCSF	Developmental psychobiology; predictors of early psychopathology
Claire Brindis, Dr.P.H.	Director, Bixby Center for Global Reproductive Health Executive Director, National Adolescent Health Information and Innovation Center, Director, Philip R. Lee Institute for Health Policy Studies, UCSF	Adolescent Health; reproductive health services; adolescent pregnancy prevention; family planning services
Nicole Bush, Ph.D.	Assistant Professor, Department of Psychiatry, Child and Adolescent Psychiatry and Health Psychology, UCSF	Biological embedding of early life stress; biological sensitivity to context (GxE, ANS, HPA) effects on stress biology across development; prenatal programming of offspring physiology and anthropometry; socioeconomic health disparities.
Michael D. Cabana, M.D., M.P.H.	Professor of Pediatrics, Epidemiology & Biostatistics Core Faculty, Philip R. Lee Institute for Health Policy Studies Chief, Division of General Pediatrics, UCSF	Clinical practice guidelines, physician practice patterns, asthma, probiotics, quality improvement, primary prevention of asthma

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Christina Clarke, Ph.D.	Associate Director for Surveillance Research, Research Scientist, Cancer Prevention Institute of California (CPIC).	Surveillance methods and cancer epidemiology
Jason Corburn, Ph.D., M.C.P.	Associate Professor, DCRP and School of Public Health, UCB. Faculty Member, program on Global Metropolitan Studies, UCB	Urban health disparities; city planning, place and health; racial residential segregation and health; Health Impact Assessment; CBPR; Environmental justice; urban health equity in developing countries
Phil Cowan, Ph.D.	Professor Emeritus, Psychology, UCB	Longitudinal studies of development; family process in children's cognitive and emotional development; preventive interventions
Julianna Dearnorff, Ph.D.	Assistant Professor, Maternal and Child Health Program, UCB	Pubertal development; adolescent sexuality and reproductive health; Latina families and health behaviors
Mark D' Esposito, M.D.	Director, Brain Imaging Center, Neuroscience Institute Professor, Psychology, UCB	Neural basis of high-level cognitive processes; physiological basis of normal human aging
Daniel Dohan, Ph.D.	Associate Professor of Health Policy and Social Medicine, Philip R. Lee Institute for Health Policy Studies, UCSF	Cancer care; healthcare inequalities and quality; transdisciplinary research in health services and policy
William Dow, Ph.D.	Professor of Health Economics, School of Public Health, UCB	Health economics; global health; economic demography
Elissa Epel, Ph.D.	Assistant Professor, Psychiatry, UCSF	Resilience & vulnerability to chronic stress; accelerated aging and metabolic sequelae; neuroendocrine mechanisms; social status as a chronic stressor
Lia Fernald, Ph.D., M.B.A.	Associate Professor, Public Health Nutrition Community Health & Human Development, School of Public Health, UCB	Psychosocial and biological determinants of health; Obesity, overweight, and nutritional and epidemiologic transition; Malnutrition, international child health and development; Immigrant health, inequalities and health disparities; Early experience, stress hormones, salivary cortisol

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Alicia Fernandez, M.D.	Professor of Clinical Medicine, SFGH, UCSF	Quality of chronic disease care; diabetes; immigrant health; Latino health; language barriers; health care disparities; vulnerable populations; resident education; medical student education
Darlene Francis, Ph.D.	Assistant Professor, Psychology and Public Health, School of Public Health, UCB	Developmental Psychobiology; Stress; Maternal Care; Gene-Environment Interactions; Environmental Regulation of Behavior Animal Models
Elena Fuentes-Afflick, M.D., M.P.H.	Vice Dean for Academic Affairs, Professor of Pediatrics, Epidemiology and Biostatistics, UCSF	Acculturation, body mass, perinatal outcomes, perinatal epidemiology, child health, media, telenovelas, immigration status, Latino health
Sally L. Glaser, Ph.D.	Chief Executive Officer, Director, Greater Bay Area Cancer Registry, Research Scientist, Cancer Prevention Institute of California (CPIC).	Surveillance research; Hodgkin lymphoma; breast cancer; EBV-related malignancies
Stan Glantz, Ph.D.	Professor of Medicine, UCSF	Health effects (emphasis on cardiovascular system) of secondhand smoke; tobacco control policies
Laura Gottlieb, M.D., M.P.H.	Assistant Professor of Family and Community Medicine, Center for Health and Community, UCSF	Social determinants of pediatric health; health services interventions on social determinants; health impact assessment
Lawrence W. Green, DPH, MPH	Professor, Dept of Epidemiology & Biostatistics, School of Medicine Helen Diller Family Comprehensive Cancer Center & Center for Tobacco Control Research & Education, UCSF	Health promotion, including tobacco control, with particular emphasis on knowledge dissemination, transfer, program planning and implementation strategies.
Sylvia Guendelman, Ph.D., M.S.W.	Professor and Chair, Maternal and Child Health, Division of Community Health and Human Development, School of Public Health, UCB	Health consequences of immigration and acculturation; health of working women; family leave and maternal and child health; maternal mental health; access to health care

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Jodi Halpern, M.D., Ph.D.	Assistant Professor of Bioethics, Joint Medical Program, UCB	Healthcare ethics; distributive justice and patient autonomy
Bonnie L. Halpern-Felsher, Ph.D.	Professor of Pediatrics, Co-Director, Postdoctoral Research Fellowship Training, Adolescent Medicine, Co-Director, General Pediatrics Fellowship, UCSF	Cognitive, psychosocial and contextual factors involved in health-related decision-making and engagement in risky behaviors; tobacco-related and sexual-related decision-making from 9th grade through young adulthood, using qualitative and quantitative data for analyses; health-related risk and benefit perceptions; racial/ethnic differences and acculturation
Julie Harris, Ph.D., MPH	Staff Scientist, Kaiser Permanente Division of Research	Ethical, legal and social implications of genomics and other emerging biotechnologies; translational and dissemination science and strategies for cancer prevention and communication
Denise Herd, Ph.D.	Associate Professor Behavioral Sciences, School of Public Health, UCB	Alcohol-related problems in ethnic minority communities; social movements and public health; health disparities; public health and new media
Elizabeth Holly, Ph.D, MPH	Professor, Epidemiology and Biostatistics, UCSF	Population-based case-control and cohort studies cancer; Genetic and clinical data to epidemiological risk-factor data
Alan E. Hubbard, Ph.D.	Assistant Professor, Biostatistics, UCB	Causal Inference Methods for Epidemiological Data, Computational Biology
Malo Hutson, Ph.D.	Assistant Professor, Department of City and Regional Planning College of Environmental Design, UCB	Health disparities; built environment and health; community and economic development; regional planning
Charles Irwin, Jr. M.D.	Professor of Pediatrics Director, Division of Adolescent & Young Adult Medicine Director, Health Policy, Department of Pediatrics, UCSF	Health consequences of risk taking behavior: system interventions to improve health status of teens
William Jagust, M.D.	Professor of Public Health and Neuroscience Chair, Division of Community Health & Human Development, UCB	Brain aging; dementia; imaging with PET and MRI

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Nick Jewell, Ph.D.	Professor of Biostatistics & Statistics, UCB	Statistical methods related to infectious diseases, including AIDS; biostatistical techniques in epidemiological data analysis; survival analysis & stochastic processes; genomics
George A. Kaplan, PhD	Thomas Francis Collegiate Professor Emeritus of Epidemiology, Founder, Center for Social Epidemiology and Population Health Research Professor Emeritus, Survey Research Center Primary Faculty, Center for the Study of Complex Systems, University of Michigan Chair, Network on Inequality, Complexity and Health (NICH)	Socioeconomic disadvantages and health; poverty; establishing the linkage between economic and social policy and health; behavioral and psychosocial factors in the prevention of cardiovascular disease; epidemiologic study of aging and the lifecourse; upstream factors, and, application of complex system models to population health and health disparities
Alka Kanaya, M.D.	Associate Professor of Medicine, Epidemiology and Biostatistics Division of General Internal Medicine, UCSF	Type 2 diabetes and obesity cardiovascular outcomes between men and women with diabetes; novel biomarkers that predict diabetes and cardiovascular disease; behavioral interventions to prevent diabetes in high-risk individuals
Andrew Karter, Ph.D.	Division of Research, Kaiser Permanente, Washington	Health disparities research; study of self-care behaviors; epidemiology of diabetes
Margaret Kemeny, Ph.D.	Professor, Psychiatry, Director, Health Psychology Program, UCSF	Psychoneuroimmunology; effects of stress and social processes, including social status, rejection, discrimination, on the neuroendocrine and immune system; inflammatory mediators of health effects
Robert Knight, M.D.	Professor, Neuroscience, Department of Psychology, UCB Director, Helen Wills Neuroscience Institute	Prefrontal cortex functions; behavioral, electrophysiological and neuronal imaging techniques to study cognitive processing
Kathryn Lee, R.N., Ph.D.	Professor, Family Health Care Nursing, Associate Dean for Research UCSF School of Nursing	Women's health; symptom management; sleep disturbances and fatigue; circadian rhythms

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Ronald Lee, Ph.D.	Professor, Demography and Jordan Family Professor of Economics, UCB	Population aging and its economic consequences; intergenerational transfers; generational economics; life history theory
Helene Lipton, Ph.D.	Professor, Clinical Pharmacy, UCSF Institute for Health Policy Studies	Pharmacy benefits management; health care reform
Harold Luft, Ph.D.	Director, Palo Alto Medical Foundation Research Institute (PAMFRI) Caldwell B. Esselstyn Professor Emeritus of Health Policy and Health Economics, Philip R. Lee Institute for Health Policy Studies, UCSF	Increasing value (raising quality and lowering cost) in health care delivery from the perspective of the patient
Ruth Malone, Ph.D., R.N.	Professor and Chair, Department of Social and Behavioral Sciences, School of Nursing Core Faculty, PR Lee Institute for Health Policy Studies and Center for Tobacco Control Research and Education, UCSF	Corporate influences on health; tobacco control policy; tobacco industry corporate social responsibility initiatives; tobacco industry influence on the US military; public relations and public health, media, marginalized groups
Daniel McFadden, Ph.D.	E. Morris Cox Professor of Economics Director, Economics Laboratory, UCB	Economics and choice theory; health and welfare economics; economic growth and development; consumption and savings by the elderly
Meredith (Merry) Minkler, Ph.D.	Professor of Health & Social Behavior, School of Public Health, UCB	Community based participatory research & its impacts on health policy; national studies of health disparities in disparity in older Americans; the health of grandparents raising grandchildren
Rachel Morello-Frosch, Ph.D., M.P.H.	Associate Professor, Department of Environmental Science, Department of Environmental Science, Policy and Management, School of Public Health, UCB	Race and class determinants of environmental health among diverse communities; relationship between segregation and environmental health inequalities, community-based health research, children's environmental health, and the intersection between economic restructuring and community environmental health

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Mahasin S. Mujahid, Ph.D.	Assistant Professor, Division of Epidemiology, School of Public Health, University of California, Berkeley	Social epidemiology of chronic disease; methods in social epidemiology; neighborhood and place-based health effects; geography of racial/ethnic health disparities
Amani Nuru-Jeter, Ph.D., M.P.H.	Associate Professor, Divisions of Community Health and Human Development; and Epidemiology School of Public Health University of California, Berkeley	Health and social policy; social inequalities in health, particularly race & class; psychosocial determinants of stress-induced health outcomes; access to and quality of care for vulnerable populations
Osagie K. Obasogie, JD, Ph.D.	Professor of Law, UC Hastings Associate Adjunct Professor, Social and Behavioral Sciences, UCSF	Bioethics; social, ethical, and legal implications of reproductive and genetic technologies; race and genetics
Elizabeth Ozer, M.A., Ph.D.	Associate Professor of Pediatrics, UCSF	Clinical interventions; system interventions to increase the delivery of preventive services to adolescents; quality improvement in primary care; adolescent risk behavior; self-efficacy research, and work and family research
Emily Ozer, Ph.D.	Associate Professor, Community Health and Human Development, School of Public Health, UCB	School and community-based interventions; promotion of mental and physical health among adolescents; violence prevention; trauma and post-traumatic stress disorder; collaborative and participatory research
Rena J. Pasick, Dr.P.H.	Associate Director, Community Education & Outreach Program Co-Leader, Society, Diversity, & Disparities Professor, Medicine Helen Diller Family Comprehensive Cancer Center, UCSF	Culture and health behavior; cancer disparities; diversity training
John Peabody, M.D., Ph.D.	Professor, Epidemiology and Biostatistics and Medicine, UCSF Deputy Director, Global Health Sciences	International health services research; quality of care; financing health care systems

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Eliseo J. Perez-Stable, M.D.	Chief, Division of General Internal Medicine (DGIM) Director, Center for Aging in Diverse Communities (CADC) Director, Medical Effectiveness Research Center for Diverse Populations (MERC), UCSF	Latino health care and health disparities; cultural differences in health status and health care delivery; smoking cessation and prevention; health and healthcare issues in minority aging; cancer screening and cancer care by race/ethnicity
Kathryn Phillips, Ph.D., M.P.A.	Professor of Health Services Research and Health Economics, UCSF	Health services research/health economics/policy analysis; clinical, economic, and policy implications of genetics and pharmacogenomics; managed care; women's reproductive health care; measuring patient preferences using quantitative approaches; cross-disciplinary research across basic, clinical, and social science
Howard Pinderhughes, Ph.D.	Chair, Associate Professor, Social and Behavioral Sciences Department, UCSF, Research Associate, Institute for the Study of Social Change, UCB Affiliated Faculty, Institute for Health and Aging, UCSF	Race relations among youth; adolescent violence prevention and intervention; racial, class, and gender health inequality
Dorothy Porter, Ph.D.	Professor and Chair, Department of Anthropology, History and Social Medicine, UCSF	Relationship between medicine and social science within the context of the transfer of health care and medical services to a range of delivery systems from tax funded to market led in the twentieth century; Social medicine
Aric A. Prather, Ph.D.	Assistant Professor, Department of Psychiatry, UCSF	Health Psychology; Behavioral Sleep Medicine; Psychoneuroimmunology; Health Behavior Research
Jodi Prochaska, PhD	Associate Professor in Residence, Department of Psychiatry, UCSF	Smoking cessation, nicotine dependence, co-occurring disorders, mental illness, psychiatric disorders, medical education, multiple risk behavior change, physical activity, nutrition, measurement, intervention, dissemination, quantitative methods

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Matthew Rabin, Ph.D.	Professor of Economics, Economics Department, UCB	Behavior modeling; risk taking
David Rehkopf, Sc.D.	Assistant Professor, Med/General Internal Medicine Department of Medicine, Stanford University	Examination of the biological pathways through which social factors impact health disparities; examination of how history of economic resources and changes in economic resources contribute to the development of disease beginning in childhood
Randy Reiter, Ph.D., M.P.H.	Epidemiologist and Planner, Community Health Epidemiology and Maternal, Child and Adolescent Health, San Francisco Department of Public Health	Assessing population burden of disease and health disparities; social determinants of health; population health models; mortality analysis; attribution methods; use/meaning of race/ethnicity and other social factors; policies impacting determinants of health. What factors should health agencies monitor in populations?
William Satariano, Ph.D.	Professor, Epidemiology & Community Health, UCB	Investigation of functional disability in older women with breast cancer, study of exercise & capacity & physical performance in older populations
Andrew E. Scharlach, Ph.D.	Professor, School of Social Welfare, Center for the Advanced Study of Aging Services, UCB	Physical and social contexts for healthy aging; built environment; community development processes; informal and formal support systems; long-term care; family care; care management
Richard Scheffler, Ph.D.	Professor, Health Economics and Public Policy, UCB	Organization and financing of mental health services; reforming health systems; global health workforce
Dean Schillinger, M.D.	UCSF Professor of Medicine in Residence Chief, Division of General Internal Medicine, SFGH Director, Health Communication Program, UCSF Center for Vulnerable Populations Medical Officer, CA Diabetes Program, CA Dept. of Public Health	Health communication, literacy, disparities, chronic disease, diabetes, language barriers, and vulnerable populations

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Joe Selby, M.D. M.P.H.	Director, Division of Research, Kaiser Permanente, Northern California	Epidemiology of diabetes, cardiovascular disease and cancer; primary care enhancement
Hilary Seligman, MD, MAS	Assistant Professor of Medicine in Residence, UCSF Center for Vulnerable Populations San Francisco General Hospital	Food insecurity, dietary intake, federal nutrition programs (SNAP and WIC), obesity, diabetes, nutrition policy, advocacy
Stephen M. Shortell, Ph.D.	Dean, School of Public Health Professor of Health Policy and Management, UCB	Health services research; organization theory; quality and outcomes of care; chronic illness
Kirk R. Smith, Ph.D., M.P.H. *On sabbatical for the 2013-2014 academic year	Professor of Global Environmental Health, School of Public Health, UCB	Studies of climate and health and health-damaging air pollution in developing countries; international assessments for energy climate and health policies
Lonnie Snowden, Ph.D.	Professor of the Graduate School, UCB	Organization and financing of health/mental health service systems; access and effectiveness of care to minority and underserved populations; minority access to mental health treatment and culturally-focused outreach; treatment effectiveness and quality of care to minorities; emergency care and minority adults and children
Carol P. Somkin, Ph.D.	Division of Research, Kaiser Permanente, Northern California	Sociodemographic factors and health; participation in clinical trials, ethical, legal, social implications of genetics research
Ira B. Tager, M.D., M.P.H.	Professor of Epidemiology School of Public Health, UCB	Ambient air pollution; asthma morbidity in socially disadvantaged children; community-based asthma prevention; physical activity and functional deterioration and mortality in elderly; effects of long-term exposure to secondhand tobacco smoke on morbidity and mortality in the elderly

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Jeanne Tschann, Ph.D.	Professor of Psychology, Department of Psychiatry, UCSF	Personal relationships and health-related outcomes; relationship dynamics and condom use among Latino adolescent sexual partners; parental influences on obesity among Mexican American children
David Vlahov, Ph.D., RN	Dean and Professor, School of Nursing, UCSF	Urban health, natural history of human immunodeficiency virus infections, transmission of HIV-1 infection HIV-1 infection injection drug users and prison inmates; medical complications of drug abuse; nosocomial infections; epidemiology of injuries; health care worker behaviors; mental health after disasters; social epidemiology; community based participatory research; program evaluation.
Rhona Weinstein, Ph.D.	Professor Emerita, Psychology, UCB	Schools, children's mental health and interventions; expectations and self-fulfilling educational prophecies
Connie Weisner, Dr.P.H., M.S.W.	Professor, Psychiatry, UCSF Kaiser, Division of Research	Substance abuse and mental health treatment utilization and outcomes including cost effectiveness
Dee West, Ph.D.	Chief Scientific Officer, Northern California Cancer Center, Professor of Epidemiology, Department of Health Research and Policy, Stanford School of Medicine, Associate Director for Population Sciences, Stanford Cancer Center	Cancer etiology; health services; quality of life
John Wiencke, Ph.D.	Adjunct Professor, Epidemiology & Biostatistics, UCSF	Genetics of cancer
Tracey Woodruff, Ph.D., M.P.H.	Director of the Program on Reproductive Health and the Environment (PRHE) Associate Professor, Department of Obstetrics, Gynecology, and Reproductive Sciences, UCSF	Environmental contaminants and effects on prenatal and child health; Public education and environmental health policies; Reproductive and environmental health

MENTORS (CONTINUED)

NAME	TITLE	INTERESTS
Ed Yelin, Ph.D.	Professor, Medicine, UCSF	Socioeconomic status and health, welfare policy; chronic disease and employment; disability policy
Irene Yen, Ph.D., M.P.H.	Associate Professor, Division of General Internal Medicine, Department of Medicine, UCSF	Social determinants of health; neighborhood environment; racial/ethnic discrimination ; social class; childhood and adolescent SES; qualitative research to create rigorous measurement tools

INTERNATIONAL FACULTY

NAME	TITLE	INTERESTS
John W. Frank, M.D.	Director, Scottish Collaboration for Public Health Research and Policy Chair, University of Edinburgh	Developing locally appropriate public health programs and policies; evaluating them utilizing the well-developed linkable administrative, demographic and survey databases in Scotland; translating the results into sustainable interventions for the long term
Noralou Roos, C.M., Ph.D.	Professor, Faculty of Medicine Founding Director, Manitoba Centre for Health Policy Director, EvidenceNetwork.ca Winnipeg Canada	Working to network academics and the media, including social media, in order to communicate evidence for understanding that health is more than health care. Promoting evidence through opeds, videos, twitter etc.
Reiner Rugulies, Ph.D., M.P.H., M.Sc.	Professor, National Research Centre for the Working Environment Copenhagen, Denmark Adjunct Professor, Department of Psychology, University of Copenhagen Adjunct Associate Professor, Institute of Public Health, University of Copenhagen, Denmark	Psychosocial determinants of the onset and course of chronic diseases and disorders, especially etiology and rehabilitation of cardiovascular disease and common mental disorders; Work and health; Explaining social gradients in health
